

# GrumpCoin

## Whitepaper

**Welcome to the Grumpy Side of Crypto**

# Introduction:

Hey there, fellow internet denizens! You've stumbled upon the most "meh" revolution in crypto - borned from the meme, community-driven Token "GrumpCoin" (GRUMPT). But hey! We're not just here to ride the meme wave. We're on a mission to sprinkle a little grumpiness into the crypto world and make it a better place for animals. How, you ask? Keep scrolling, curious cat!

# Problem Statement:

The crypto world is bustling with tokens that promise the moon but deliver a litter box. Meanwhile, countless animals out there could use a helping paw. We thought, "**Why not combine memes with missions?**" And thus, GrumpCoin was conceived - a token that's serious about making a difference but doesn't take itself too seriously

# The Concept:

GrumpCoin is not just another meme token. It's a movement. With GrumpCoin, we aim to support animal charities worldwide while giving our community a token that's both fun and potentially profitable. Each GrumpCoin transaction is a step towards a world where every tail wags and every purr is loud. Our motto? "Be grumpy. Do good."

# Why GrumpCoin?

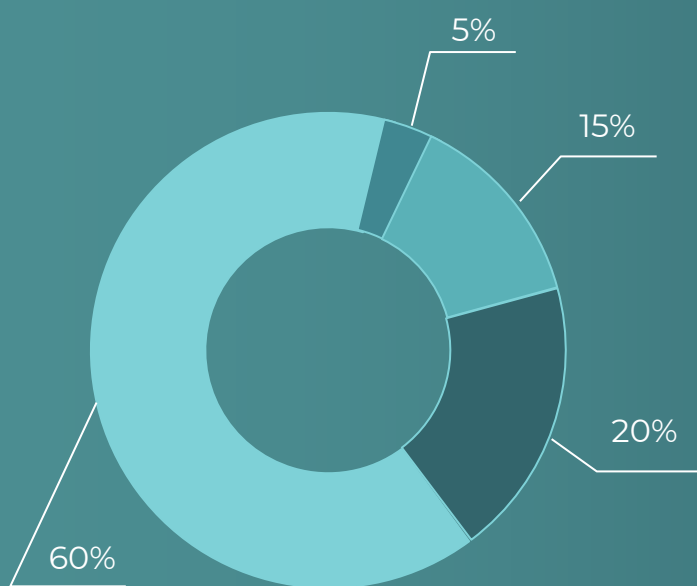

Because in a world full of promises of reaching ATHs and changing the game, GrumpCoin offers a refreshing dose of reality, mixed with a purpose that goes beyond just trading. We're here to make a difference, one grump at a time
